Emissions reduction targets

To begin our progress towards achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next 5 years to xxxxx tCO₂e by 20xx. This is a reduction of xx%.

Progress against these targets can be seen in the graph below.

Carbon Reduction Projects

Due to 2025, being the first time we have completed a Carbon Reduction Plan, we aim to implement more accurate data recording techniques over the next 2 years. At the end of 2027, once we have been able to review this data, we then aim to create a carbon reduction plan.

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate Government emission conversion factors for greenhouse gas company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).
